

COMPANY

Six Dimensions is a privately held San Ramon, California-based company that distinguishes itself by providing expert consulting services through top-tier talent. Over the past four years, the company has built a network of skilled consultants that offer unsurpassed expertise across a broad variety of market segments and across the most critical and complex enterprise programs within Fortune 50 and emerging companies. Six Dimensions' mission is to become the number one ERP vendor of choice. The company embraces success, for its consultants and its clients, centered around a team-oriented approach based on loyalty and integrity.

Founded in 2004 by Tejune Kang, Six Dimensions delivers practical project expertise in enterprise implementations and upgrades as well as optimization of databases and networks. Leveraging the skills of certified PeopleSoft, Oracle, JD Edwards, Hyperion, Siebel, and SAP functional, technical, and project management consultants, Six Dimensions is dedicated to fostering and growing a team of seasoned experts.

OUR CORE ATTRIBUTES

Value – Six Dimensions is value. True value depends entirely on what you compare it with. The lowest price often delivers the lowest value and the highest price is usually just that. Six Dimensions—value delivered.

Success – We deliver. Theories are worthy of water cooler conversations, but results pay the bills. We're here to help you pay the bills.

Integrity – Without it, you have nothing. Results without honest accountability are deliverables without substance. We are responsible for what we deliver and we deliver dependably.

Loyalty - A platinum attribute in a throwaway business world. Long-term is the only term worth pursuing. Loyalty is long-term thinking.

People – We are our consultants. Companies don't deliver project results—people do. Engaged consultants motivated by challenging projects keeps Six Dimensions a vibrant provider.

Customers – You will be satisfied. Value, Success, Integrity, Loyalty, and People—our formula for customer satisfaction.

WHY SIX DIMENSIONS?

Business success today requires an agile and qualified workforce capable of keeping pace with changes in technology. Too often, organizations are unable to quickly adapt to market conditions to accommodate new software and network solutions. Many companies simply lack the internal resources or expertise to adapt their systems to meet changing business needs.

Six Dimensions helps organizations strengthen their current staff and secure the greatest value from their technology investments. We provide top-tier, certified consultants who add immediate value to your team. Our consultants work side by side with your staff to define, manage, and implement enterprise software and technology projects across some of the most complex technology on the market today. Our consultant's expertise and industry knowledge help ensure project success.

KEY DIFFERENTIATOR

Six Dimensions distinguishes itself by providing expert consulting services through its top-tier talent who provide world-class enterprise implementation and integration consulting and staffing services. Our value proposition is simple: Combine highly experienced consultants with a team-based approach and industry-leading tools to help you maximize your technology investments. The company provides a full range of staffing solutions ranging from individual placement of expert consultants for contingent to direct-hire positions, to on-demand implementation and management consulting services.

- Contract Services
